

TOPROC

The Top End Regional Organisation of Councils (**TOPROC**) comprises the six Local Government Councils located in the Greater Darwin Region who are committed to securing a brighter future for the Northern Territory.

TOPROC represents over 57% of the Northern Territory's population and is home to over 70% of the Northern Territory's registered businesses. Since 1997, **TOPROC** has provided a strong collective voice on Top End issues and a collective forum to strengthen Local Government in the Top End.

TOPROC understand that the Greater Darwin Region is a unique and tropical environment and provides Australia with a key strategic gateway into Asia's expanding economies. Recognising this opportunity, **TOPROC** is committed to a vision that provides:

- A highly productive, innovative, resilient and commercially exciting economy
- Culturally diverse, dynamic and inclusive communities that welcome new people and ideas
- A relaxed and friendly lifestyle, which encourages participation in community life and protects people and the environment

Focusing on land use planning and policy, waste and recycling and the incorporation of unincorporated land; **TOPROC** recognises the importance of building sustainable partnerships with all levels of government.

In order to secure a brighter future in the Northern Territory, **TOPROC** welcomes the opportunity to work with you as a valued partner to achieve our objectives and priorities.

**TOPROC
represents
over 57% of
the Northern
Territory's
population**

**TOPROC
understand that
the Greater
Darwin Region
is a unique
and tropical
environment**
